

**AMENDMENTS TO THE SPECIFICATION:**

Please replace the paragraph beginning on page 28, line 21, with the following amended paragraph:

The central portion of the mirror holder 44 is swingably supported in a vicinity of a corner portion of the rear housing [48] 48B. Specifically, a pivot portion 50 is recessed in a substantially hemispherical shape at a corner portion of the rear housing 48B. A supporting shaft portion 52, which is formed to project from the central portion of the mirror holder 44 in a substantially hemispherical shape in correspondence with the configuration of the inner surface of the pivot portion 50, is swingably fit together with the pivot portion 50.
